| Section 1.         | Material Information  |
|--------------------|---|
| Product Name:      | Low Sheen Acrylic   |
| Manufacturer:      | Ultratex Wall Cladding & Coating Pty Ltd                                      |
| Recommended Use:   | A high quality universal water based acrylic that dries to a low sheen finish |
| Emergency Contact: | 131 126   |

Based on available information, not classified as hazardous according to criteria of NOHSC.

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail.

| Section 2.       | Hazard Identification |
|------------------|-----------------------|
| Poison Schedule: | None allocated.       |

| Section 3.          | First Aid Measures  |
|---------------------|---|
| Inhalation:         | Move the affected person from the exposure into fresh air. Seek medical attention if symptoms persist.  |
| Skin Contact:       | Remove contaminated clothing and wash affected skin with running water and soap. Seek medical attention if irritation persists.   |
| Eye Contact:        | Flush eyes with large amounts of water until irritation subsides. Hold eye lids apart. Seek medical attention if irritation persists.                                   |
| Ingestion:          | If swallowed do not induce vomiting. Rinse mouth with water. Give small quantities of water to drink. Observe patient and if vomiting continues seek medical attention. |
| Notes to physician: | Treat symptomatically.  |

For advice, contact a Poisons Information Centre (Phone - Australia 131 126) or a doctor.

| Section 4.                                 | Composition / Information of Ingredients |            |
|--|--|------------|
| Components                                 | CAS Number                               | Proportion |
| Ingredients determined not to be hazardous |  | to 100%    |

| Section 5. Fire Fighting Measures    |  |
|--------------------------------------|--|
| <b>Specific Hazards:</b>             | Non-combustible material   |
| <b>Fire-fighting advice:</b>         | Not combustible, however following evaporation of aqueous component residual material can burn if ignited. On burning may emit toxic fumes. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion. |
| <b>Suitable Extinguishing Media:</b> | If material is involved in a fire use water fog (or fine water spray), foam, dry agent (carbon dioxide, dry chemical powder).  |

| Section 6. Accidental Release Measures  |  |
|---|--|
| <b>Emergency procedures/Environmental precautions:</b>  | If contamination of sewers or waterways has occurred advise local emergency services.  |
| <b>Personal precautions/Protective equipment/Methods and materials for containment and cleaning up:</b> | <p><b>SMALL SPILLS:</b> Wear protective equipment to prevent skin and eye contamination. Wipe up with absorbent rags or paper towels. Allow absorbent to dry before disposing with normal household garbage.</p> <p><b>LARGE SPILLS:</b> Slippery when spilt. To avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination. Contain – prevent run off into drains and waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers for disposal.</p> |

| Section 7. Handling and Storage |   |
|---------------------------------|---|
| <b>Handling advice:</b>         | Keep out of reach of children. Avoid eye contact and repeated or prolonged skin contact.                            |
| <b>Storage advice:</b>          | Store in cool place and out of direct sunlight. Keep containers closed when not in use - check regularly for leaks. |

| Section 8. Exposure Controls / Personal Protection |  |
|--|--|
| <b>Occupational Exposure Limits:</b>               | No value assigned for this specific material by Safe Work Australia.   |
| <b>Engineering Control Measures:</b>               | Provide adequate ventilation. If using indoors, keep windows and doors open during use. Keep containers closed when not in use.            |
| <b>Personal Protective Equipment:</b>              | Wear overalls, safety glasses and impervious gloves.  |

| Section 9. Physical and Chemical Properties |                                  |
|---|----------------------------------|
| Physical state:                             | Clear to coloured viscous liquid |
| Colour:                                     | Clear                            |
| Solubility:                                 | Miscible with water              |
| Specific Gravity:                           | 1 to 1.3                         |
| Relative Vapour Density (air=1):            | >1                               |
| Vapour Pressure (20 °C):                    | Not Available                    |
| Flash Point (°C):                           | Not Applicable                   |
| Flammability Limits (%):                    | Not Applicable                   |
| Autoignition Temperature (°C):              | Not Applicable                   |
| Melting Point/Range(°C)                     | Not Available                    |
| Boiling Point range(°C)                     | >100                             |
| Ph:   | 8-10                             |
| Viscosity                                   | Not Available                    |

| Section 10. Stability and Reactivity |   |
|--------------------------------------|---|
| Stability:                           | No information available.                                   |
| Chemical stability:                  | Stable under normal conditions of use.                      |
| Possibility of hazardous reactions:  | No known reactions  |
| Conditions to avoid:                 | Avoid contact with foodstuffs. Elevated temperatures.       |
| Hazardous Decomposition:             | Oxides of carbon and nitrogen, smoke and other toxic fumes. |

**Section 11. Toxicological Information**

No adverse health effects expected if handled according to this SDS. Symptoms that may arise if mishandled are

|                            |   |
|----------------------------|---|
| <b>Ingestion:</b>          | May cause irritation to mouth, throat, digestive tract and stomach and may cause nausea and vomiting. |
| <b>Eye contact:</b>        | May cause irritation to the eyes.   |
| <b>Skin contact:</b>       | Contact with skin may result in irritation.   |
| <b>Inhalation:</b>         | May cause irritation to mucous membranes and respiratory tract, dizziness, headache and nausea.       |
| <b>Toxicological Data:</b> | This product has been classified as non-hazardous.  |
| <b>Chronic effects:</b>    | This product has been classified as non-hazardous.  |

**Section 12. Ecotoxicological Information**

Avoid contaminating waterways.

**Section 13. Disposal Considerations**

|                          |   |
|--------------------------|---|
| <b>Disposal methods:</b> | <b>If possible, recycle material and container otherwise dispose in accordance with local, national and international regulations</b> |
|--------------------------|---|

**Section 14. Transport Information**

|                                 |   |
|---------------------------------|---|
| <b>Road and Rail Transport:</b> | Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail.                       |
| <b>Marine Transport:</b>        | Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.                    |
| <b>Air Transport:</b>           | Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air. |

**Section 15. Regulatory Information**

|                          |   |
|--------------------------|---|
| <b>Classification:</b>   | Based on available information, not classified as hazardous according to criteria of NOHSC. |
| <b>Poisons Schedule:</b> | None allocated.   |

**All the constituents of this material are listed on the Australian Inventory of Chemical Substances (AICS).**

| Section 16. Other Information   |              |
|---|--------------|
| This material safety data sheet has been prepared by Ultratex Wall Cladding & Coatings Pty Ltd - Technical Department |              |
| Reason(s) for Issue:  | Revised MSDS |

This MSDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Ultratex cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact Ultratex using the contact details on page 1. Ultratex Wall Cladding & Coatings Pty Ltd.'s responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request
